SUMMARY

A proactive and fast learner with a global mindset and passion for technology. **Double major** in European Languages & Cultures (**Spanish** focus) and **Accounting**, with an international exchange experience at Universidad de los Andes in Colombia. With **entrepreneurial experience** securing a Taipei City Government startup subsidy, I self-taught and developed strong skills at full-stack development, cloud infrastructure, database, and IoT integration.

EDUCATION

National Chengchi University (NCCU), Taipei, Taiwan

AUG 2020 - JUN 2025

- Bachelor of Arts (European Languages and Cultures - Spanish focus) & Bachelor of Science in Accounting

Universidad de los Andes (Uniandes) (QS #179), Bogotá, Colombia

AUG 2024 - DEC 2024

- International Exchange Program - Business Administration
- Worked with a group of Colombian and Netherlander to brainstorm a marketing strategy for Universidad de los Andes.

RELEVANT SKILLS

Cloud Platform: Google Cloud (Cloud Run, Cloud Build, Compute Engine, Google Map), AWS (EC2, SES, S3), Cloudflare (Tunnel, Domain, DNS, R2, Workers & Pages), Vercel

Database: DBMS lecture, SQL, PostgreSQL, MongoDB

Others: Visual Studio Code, Copilot, Git, Github, Docker, Linux, systemd

WORK EXPERIENCE

BUBU E-Scooter CO., LTD. (Startup) | Taipei, Taiwan (Hybrid)

JUL 2023 - JUL 2025

Founder & Full-Stack Engineer (JUL 2023 - JUL 2025)

- Secured NT\$1,000,000 Taipei City Government startup subsidy by drafting and presenting a comprehensive business plan, conducting competitive analysis, and projecting a three-year financial forecast.
- Designed and deployed a Python Flask application on Google Compute Engine (Linux Debian), orchestrated MQTT server operations via systemd, and integrated a CI/CD pipeline using GitHub webhook.
- Developed and maintained a LINE Bot application using Node.js, TypeScript, and React Router v7; stored data in PostgreSQL and MongoDB, and coordinated IoT telemetry and remote device control.
- Integrated and documented third-party APIs including Ragic ERP, LINE Pay, LINE Messaging API, and TapPay, providing seamless payment flows and enterprise resource connectivity.
- Created a TypeScript Remix website with TailwindCSS and MongoDB, deployed on Google Cloud Run; promoted the product, which reached over 1,000 monthly views, by publicizing its high availability, performance, and cost efficiency.

SIDE PROJECT

PapaCloud: Developed an open source CMS that host my personal website. Planned to build a modern AI-driven accounting system for SMEs, based on a PostgreSQL-native configurable modern GUI database, including multiple views.

LEADERSHIP EXPERIENCE

NCCU Mutual Fund Club – Chief Financial Officer

- **Analyzed macroeconomic statistics and company financial reports to generate industry research reports.**
- Prepared semiannual budgets and financial statements; managed club administration and general affairs.

NCCU EuroCamp 2022 – Chief Coordinator

- Organized and led a team of 40 to execute a successful 5-day on-campus event for 60 attendees during pandemic.

LANGUAGES, TECHNOLOGY & OTHER

Languages: Chinese Mandarin (Native), Taiwanese Hokkien (Native), English (Advanced, TOEIC 905), Spanish Castellano (Intermediate, DELE B1), Japanese (Beginner), French (Beginner)

Programming Languages & Frameworks: TypeScript/JavaScript, Python Flask, GO, React, React Router v7, Flask
